PARIS, BOURBON COUNTY, KENTUCKY, FRIDAY, OCTOBER 19, 1917

MYSTERY OF MANY YEARS IS CLEARED UP HERE.

An inquiry of the Chief of Police at Lexington by the Chief of Police of Beaumont, Texas, asking for aid in finding June Stone and John Goff, both former residents of Bourbon county, helped to clear up a mystery that has for many years baffled solution here.

News of the death of Lucius Desha Stone, brought to his relatives in this county this week was the first information they had had of him since he disappeared from his home in the vicinity of Little Rock, this county, over thirty years ago. In 1887 Stone mysteriously disappeared from his home on the Stone farm near Little Rock, and no circumstance developed nor was any clue found that shed the least bit of light as to the cause of his disappearance or as to his whereabouts. With the passage of years his friends and relatives became convinced that he had met foul play, and his death was taken as an assured fact. All search for him was discontinued years ago.

About four years ago Mr. John Burris, who owned a farm near where Stone had lived, unearthed a skeleton of a male in a field where he was plowing. The skeleton was perfectly formed and well-preserved despite its burial in the ground for very evidently many years. Old residents of the community remembering the disappearance of Stone, at once took up the theory that he had been murdered by one of the farm hands, and his body buried in the field where the skeleton was found.

Soon, however, it was learned that his disappearance was still an unsolved mystery, as the story of the skeleton reached the ears of Mr. Jas. Gibson, now Deputy Sheriff under Sheriff W. F. Talbott. Mr. Gibson stated that he could account for the presence of the skeleton in the field and that it was not that of Mr. Stone. He said that twenty years ago he was residing with his brother, Mr. Wm. Gibson, a well-known farmer of that vicinity, and had been studying medicine with a view of adopting it as a profession. He borrowed a skeleton from Dr. W. C. Wilkerson, of Little Rock, to use in study of anatomy. After he no longer needed it in his studies it was stored away in an old loft in a buggy house. The house was afterward torn down, and the skeleton was buried in the field where it lay forgotten until turned up by Mr. Burris' plow.

The story which brought the news of the death of Lucius Stone was first printed in the Lexington Herald, in the shape of a letter to Chief of Police J. J. Reagan, in Lexington, from the Chief of Police at Beaumont, Texas, asking for aid in finding June Stone and John Goff, whom Lucius Stone, in his last illness, asked to be appraised of his death. Stone had been working in Beaumont where he died a few days ago. He was a brother of Squire James Stone and Mrs. Thomas Goff, of North Middletown. The John Goff referred to in the communication from the Beaumont Chief of Police, died in this county several years ago.

When Stone disappeared over thirty years ago he left behind him a wife, Mrs. Belle Gibson Stone, and four children, Mr. J. Will Stone, Miss Mary Stone, a trained nurse, and Mrs. Sallie Woodall, now residents of Paris, and Miss Gertrude Isles Stone, now a resident of Wisconsin. In 1892 Mrs. Stone secured a divorce and married Mr. Thomas Taul, of Paris, the Democratic nominee for Jailer of Bourbon county.

ATTEND Y. M. C. A. CONFERENCE

A conference of the Y. M. C. A. held in Louisville, Tuesday, was largely attended from all over the State. The conference was addressed by Mr. Fletcher Bookerman, Assistant General Secretary of the International Committee Y. M. C. A. and diplomatic minister of the United States to Russia, who told of conditions in Russia and in China, where he also lived for several years.

Among those who attended from Paris were Mr. Z. L. Wilcox, Secretary of the local Y. M. C. A., Assistant Secretary Thos. Smith, H. A. Power, C. O. Hinton and Peale Collier.

ENTERTAIN AT OLD UNION.

There will be an entertainment at the Old Union church to-night at 7:30 o'clock, the program to consist of readings and music. At the conclusion of the program the women of the church will serve oyster soup. An admission of twenty-five cents will be charged, the proceeds to be applied to church work.

SECOND LIBERTY LOAN CAMPAIGN IS LAGGING.

The campaign for the sale of the Second Liberty Loan bonds in this city and county, seems to be dragging, and is not making as satisfactory progress as was thought possible at first.

We had been led into an error in reporting that the second loan was being liberally subscribed to. The reverse is the truth, as we have learned from an authority in a position to know. Our impression came from an announcement that there would be no "campaigning" for the loan, and that many were confident the bonds could and would be promptly taken by the patriotic people of Paris and Bourbon county.

There is a strange apathy, growing doubtless, out of the impression that there would be an eager demand for the bonds, and that, therefore, there was no occasion for anybody to bestir himself. When our people wake up to the requirements and when everybody is doing something, then, and then only, can it be understood that the loan is going well. It takes a drive all along the line by everybody to make this second loan the success the first one was.

One of the most patriotic displays we have noticed in the show window of L. Frank & Co., where the windows are literally covered with artistic posters, advertising the Liberty Loan Bonds. Mr. Frank and his associates have all along been among the foremost advocates of the Liberty Loan, and the example is one to be emulated by others. To obscure and hide their own window display with Government posters is an attestation of the patriotism of the members of the firm.

MASONIC GRAND LODGE ELECTS NEW OFFICERS.

The annual session of the Kentucky Grand Chapter, Royal Arch Masons, held in Louisville this week, was one of the most interesting ones of recent years. At the session held in the Masonic Temple Tuesday night the following officers were elected for the new term:

Grand high priest, Isaac T. Woodson, Louisville; deputy grand high priest, Sidney S. Pinney, Mt. Sterling; grand king, Samuel K. Veach, Carlisle; grand scribe, James F. Winn, Winchester; grand treasurer, Frank H. Johnson, Louisville; grand secretary, G. Allison Holland, Lexington; grand captain of the host, Hanson Peterson, Cynthiana; grand principal sojourner, James Garnett, Louisville; grand royal arch captain, Alec Gordon Sulser, Maysville; grand master of the third veil, W. R. Johnson, Lebanon; grand master of the second veil, Frank D. Rash, Earlington; grand master of the first veil, Virgil P. Smith, Somerset.

Membership in the Grand Lodge during the fiscal year 1916-17 totaled 46,046, an increase of 1,560 over the preceding year, according to the report of Grand Secretary Dave Jackson. There are 592 lodges represented in the order. Receipts for the fiscal year were \$99,984.55. The assessment for the Widows and Orphans' Home was \$33,293 and for the Old Masons' Home at Shelbyville \$11,100. The payroll of the lodge amounted to \$11,128. Cash to the amount of \$99,967.08 is now on hand in the treasury, without expenditures and appropriations for the ensuing year having been made.

FOUR-MINUTE TALKS FOR BONDS AT OPERA HOUSE

Beginning with to-night four-minute talks in the interest of the Liberty Loan Bonds will be made at the Alamo Theatre and the Grand Opera House. At the Grand to-night Mr. E. M. Dickson will address the audience in a four-minute speech, advocating the purchase of bonds. Judge Denis Dundon will make a four-minute talk at the Alamo to-morrow (Saturday) afternoon along the same lines, and on Saturday night at the Opera House, Mr. John J. Williams will in a four-minute talk tell of the urgent need of helping the Liberty Loan campaign in this city and county.

THE VARDEN SALE.

Thirteen pieces of city property belonging to the estate of the late Dr. George Varden, of Paris and Lexington, were sold at public auction yesterday by the Security Trust Company, of Lexington. Auctioneer Geo. D. Speakes crying the sale.

The various properties brought a total of \$16,875. Dr. George S. Varden bought the home place which he now occupies, for \$3,000. Mr. Hugh Brent purchased the home adjoining, in which he resides, for \$2,100. The rest of the property brought from the various purchasers a total of \$11,775.

DR. FRITZ'S CASE POSTPONED IN FEDERAL COURT.

Dr. John Fritz, of Covington, who gained considerable notoriety in connection with work for the Red Cross and who lectured in Paris just preceding his arrest on a charge of impersonating a United States officer, has been released. The Louisville Times says:

"Indicating that the charge of impersonating an officer against Dr. John Fritz, who was indicted by the Federal grand jury, would not be pushed, District Attorney Miller secured the postponement of the case until the next term of court. Dr. Fritz was released on his own bond and then turned over to the Federal authorities at Covington, in the Eastern Judicial district of the State, where similar charges are pending against him.

"Dr. Fritz said he intended as soon as his freedom was obtained to begin another lecture tour to obtain recruits for Uncle Sam. However, he said he would be mighty careful not to misrepresent himself, no matter how pressing the need.

"The defendant, who is not a physician, but a chiroprapist, Mr. Miller said, was arrested June 15 after making a lecture at Lagrange, Ky., and taking up a collection. He freely admits this method in many parts of the country, but says the money, with the exception of a small sum to defray his expenses, was turned over to the Red Cross and used to pay the transportation of recruits to the recruiting stations. District Attorney Miller stated that an investigation had failed to reveal that the defendant was pro-German and pointed out that the man had spent four months in jail already and had repented."

GERMAN AGENTS WORK AGAINST LIBERTY BOND SALE.

Pro-German agents in the United States, according to the report to the Treasury Department, have directed their energies toward defeating the Liberty Loan. Their organized propaganda has borne fruit, from Minnesota to Texas, it is asserted, in scattered localities where weak efforts have been made, not openly, but by indirect methods, to discourage subscriptions.

The work of the pro-German agents, officials assert has been carried on for more than two weeks. Some of the workers have had the temerity, reports to the Treasury indicate, to conduct their operations in the National Capital.

Official recognition of the propaganda against the loan was voiced by Colonel Herbert M. Lord, representing the War Department at the War Risk conference, at which the details of the new sailors and soldiers insurance law are being explained to officers and enlisted men from the various cantonments.

LADIES TO HELP IN LIBERTY BOND CAMPAIGN.

The ladies of Paris and Bourbon county are going to take an active part in prosecuting the campaign for the sale of Liberty Loan bonds in this vicinity.

All ladies who are willing to give a part of their time toward soliciting subscriptions for the Liberty Loan bonds are asked to meet in the County Court room at the court house next Wednesday afternoon, at 2:00 o'clock. The subscription will close on Saturday, October 27, and it is desired that Bourbon's women make an active campaign all along the line to the closing hour.

THIS IS THE LAW.

"The Assessor or his deputy, before he returns any one in default, shall apply at his residence, if a corporation at the place of business, for list of his taxable property, and in case of his absence, leave a written notice with some person of the household over sixteen years of age, or put on the front door of the residence or place of business, of the time and place such person shall meet the Assessor in his county, and give in his list of taxable property; and if he fails to attend and give in such list, then the Assessor shall report the person to the County Clerk, and the Clerk shall report such person to the Supervisors, who shall assess and value his property."

NEWS FROM THE KENTUCKY OIL FIELDS.

The real feature of the Kentucky oil fields is the wide area that is being tested by the drill, there being work under way in 46 counties in Kentucky and one in Tennessee, and what these wild-cat wells will bring forth remains yet to be seen. The supposition is that pools just as rich as the Irvine and Pilot fields will be discovered, but whether or not in the list of wells now drilling.

During September there were 135 wells completed, of which 29 were dry holes or gas wells, leaving 105 producing wells, with a new production of 2,571 barrels. When compared with the figures of August this shows a decrease in completed wells of 31 and 26 less dry holes or gas wells, while in production there is an increase of 619 barrels. This increase is not due to the Irvine field in Estill county, but the Pilot Ashby field in Powell county, where some very productive wells were developed during the month by Pat J. White, Carl K. Dresser, the Petroleum Exploration Company, Cherokee Oil Company, Foreman & Hocketter and others. The new production of the wells of Powell county alone shows 2,010 barrels from 35 producing wells, which is a big acreage.

Mr. Fletcher Mann, of Lexington, a former resident of Paris, is at the head of the Phoenix Oil Production Company, a new \$50,000 organization that has filed articles of incorporation with the Secretary of State at Frankfort. Mr. Mann is father of Mr. Hord Mann, Assistant Cashier of the First National Bank, of Paris.

MORE ACCIDENTS.

Master Billie Powell, son of Mr. and Mrs. Wm. C. Powell, of Harmon street, was painfully bruised and cut about the head and face Wednesday afternoon by a fall from a wagon in which he was playing. He was taken to his home and first-aid-to-the-injured treatment given.

Misses Betsy Ray and Mary McCarthy, of Paris, and Miss Ray's guest, Miss Beatrice Johnson, of Toronto, Canada, while riding in Miss McWilliam's pony cart, were thrown out when a clip broke on a shaft, causing the cart to turn over. Misses Johnson and Ray were considerably bruised, and Miss McWilliams had one arm slightly hurt. All are able to be out again.

While descending the steps at her home on Mt. Airy avenue, Miss Virginia Davis made a miss-step, and fell to the bottom of the stairs, landing on her face and shoulders. She sustained painful bruises and a nervous shock that has kept her confined to her bed. She is greatly improved.

\$2,000,000 FIRE IN KANSAS CITY STOCK YARDS.

A great blaze in the Kansas City Stock Yards, Tuesday, destroyed ten acres of hog pens. Thousands of heads of livestock perished in the flames.

Estimates on the actual loss of stock and property vary, but it is believed that it will reach \$2,000,000.

The number of cattle lost is known to be as high as ten thousand and two thousand hogs, although officials of the corporation owning the stockyards admitted that about 4,000 head of stock were destroyed.

During the progress of the fire, hundreds of cattle were driven from the pens and ran wild in the streets, and it will be impossible to identify many of them.

Several of the fire companies tried to extinguish the flames and the guard company was put on duty.

The origin of the fire is not yet known. Officials declared that their losses were covered by insurance.

MISS NEVILLE WILL ADDRESS NORTH MIDDLETOWN CLUBS

Miss Linda Neville, whose work among the blind in the Kentucky mountains has become nationally known, will go to North Middletown to-day where she will deliver an address this afternoon before the North Middletown Women's Club.

Miss Neville will recite some of her experiences among the mountain people, what she and her assistants have done, and what they hope to accomplish in the future. Miss Neville will be the house guest of Mrs. Jas. C. Evans, near North Middletown during her stay.

LOCAL BOWLING SEASON OPENS AT FORDHAM ALLEYS.

The bowling season of 1917-1918 opened at the Fordham Alleys on last Monday night with a "warm game" between the Bourbon Laundry and Curtis Henry teams, old rivals in the City Bowling League races of last year. The former team proved the victors when the final scores were chalked up, having a safe lead of 84 pins to the good. Star performers for the Laundry team were Swearingen, who led for first honors with 208 in the third game, followed by Shankland with 202 in the second game. Swearingen also took third honors with 177 in the first game. For the Curtis Henry team Jones led with 176, followed by Denton and Woods, who tied, having 167 each to their credit. In the game Wednesday night between the R. P. Walsh and the T. W. Spicer teams, victory came to the Spicer team by a 24 pin majority. Starring for the Spicer team were Hill with 170 for high and 165 for second, followed by Harper with 161. The stars for the R. P. Walsh team were Thomas with 203 and 199, Jackson with 190 and Santen with 171.

The games were witnessed by a large crowd, showing that interest in the game has not abated because of the war or other reasons. The scores and club standing follow:

The College Freshman.

The young student's first appearance on the college campus is one of some obloquy. The very word "Freshman" suggests awkwardness. Not merely does he feel his rawness, but the older students subject him to some oppressions. This is supposed to be essential to his training.

Formerly this taming took the form of physical hazing. Putting the Freshman under the pump is older than any text book. Undoubtedly some impudent spirits had their presumption worn off by such methods. But the average Sophomore is not mature enough to set up as moral disciplinarian or censor of manners.

In most colleges now the more active hazing is obsolete. But there are subtler, sometimes more irritating ways of attaining the same purpose. There is a feeling that the Freshman is a bumptious specimen, whose self conceit must be taken down. He must know his place, and show due reverence to dignitaries like Sophomores. Various humiliations are devised toward these ends.

The Freshman is, of course, a little absurd from his unfamiliarity with his new world. Ignorant of its manners and customs, he makes blunders. The Sophomore who sneers at them seems an infinitely wiser personage. As a matter of fact, he doesn't know much more. His additional year of study and experience has still left him with the conceits of extreme youth. His college life may even have added to these conceits.

Despite the Freshman's various awkwardness, he is a very attractive figure. He is full of enthusiasm and ambitions. Perhaps these are more fervent than they will be later in the course. He may then learn how to capture a degree without working much of it.

High and preparatory schools turn out very mannerly looking graduates

nowadays. These lower schools provide a pretty full life of their own, and the boy as he goes on to college often looks and acts very much like a gentleman. There may be little of the rawness that the word "Freshman" suggests.

The Hazards of Football.

Every season at this time of year one used to read much about the perils of football. There was a chorus of attack on the slaughter of our college and high school innocents. The game was denounced as merely beefy and brutal.

One scarcely sees a line of that this fall. Yet there are always about the usual number of football accidents. In spite of attempts to open up the play, it will always be a game for strong boys, capable of giving and taking hard knocks.

Perhaps the European war has made us indifferent to the chances of death and accident lying all around us. With thousands dying daily in the trenches, the sacrifice of a few tacklers and quarterbacks seems a mere incident. The intimate circle of friends may be indignant, but no popular feeling is aroused.

The long story of automobile accidents every day may be a factor. With father and mother doing 40 miles an hour out on the motor road, they can't say much about the son who risks having his spine snapped by a rough tackle.

Swimming causes a hundred times more fatalities than football. But no one ever started a crusade against water sports.

The American people are a nation of chance takers. They hate to quit on anything on which their heart becomes set, and only in their cooler moments do they weigh chances. They dislike to admit in public that they are afraid of anything.

They would live just as happily if they formed the daily habit of taking more careful precautions. Swimming, by beginners at least, could be protected by having regular provision of life guards. The motor roads could be made comparatively safe by a drastic enforcement of existing laws. Football might be remodeled into the game as played in England, where accidents are comparatively few.

But efforts for such precautions are contrary to the national temperament. People who never had a serious accident are sustained by the cheerful optimism that nothing ever will happen.

When the Frost Is on the "Pumpkin."

These be the days of the crisp and frosty morning, of the golden rod and the changing leaf, when a stroll through the woods is an excursion

into delights unknown to the man who confines himself to the sordid city streets.

They also be days which bring up visions of a time when some of us were not in such a hurry to run through the allotted limit of life; days the memories of which carry the aroma of a wood fire and a steaming kettle of "backbone and potatoes and onions," pumpkin pie and corn pone and buttermilk—of a rag carpet and a cat on the hearth, and a white-capped grandmother in the chimney corner—what if she may have been smoking a pipe?

Or perhaps we dream of the warm, clinging water of the shoals in which we waded on bright October mornings in search of that royal fellow, the small-mouthed black bass, who dared us cast the lure and did not hesitate to answer the challenge back to him, rushing, leaping, plunging with the steel in his flesh, but asking no quarter; and then the lunch on the rocks between towering cliffs and hillsides made glorious by the dash of coloring which the Master Artist spilled his wealth of purple and green and gold to produce, the coffee from the little old blackened pot and the brittle streaks of bacon broiled in the battered frying pan commingling their perfume with the sweet odors of the surrounding atmosphere until the senses refuse to do anything but dream and dream and dream.

And then the return to the camp in the evening, wet and tired; the rub down and the warm clothing, the seat by the blazing wood fire, the cackle of Gus and Arch and bewhiskered Bill recounting the day's luck or ill luck, later the fried bass, the pipes, the dying embers and the cots upstairs.

GIRLS GET BUSY.

Girls and women have begun to take the places of men and boys in performing labor in Paducah, the change having become a necessity because of a lack of male help.

Girls are operating elevators at several stores, and at other work where boys could not be had. The Postal Telegraph Company has supplanted all of its boy messengers with girls and Manager M. V. Grubbs said they were giving better satisfaction. At the present time there is a scarcity of male labor.

DO YOU HAVE DIZZY SPELLS?

It's Important to Learn the Cause, As Many Paris People Have.

Dizziness is never a disease of itself—it's only a symptom of some deep-seated trouble. Much dizziness is caused by disordered kidneys failing to filter all the poisons from the blood. These poisons attack the nerves and dizziness results. If you are subject to dizziness, there is good reason to suspect your kidneys, and if you suffer backache, headache and irregular kidney action, you have further proof. Many Paris people have learned the value of Doan's Kidney Pills in just such cases. Read this Paris resident's statement:

Mrs. J. W. Markland, 326 Eighth Street, Paris, says: "Some few years ago, I suffered severely with kidney complaint and sometimes was in a serious condition. I have had a constant, dull ache across the small of my back, and I have had terrible dizzy spells at times. I have used Doan's Kidney Pills for this trouble and they have helped me more than anything else, always relieving me of the complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills, the same that Mrs. Markland had. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

Catarrh of Stomach

Mrs. Mary Fennell, R. F. D., Pomona, Missouri, writes:

"I wish to say a few words in the praise of Peruna. I have used it with good results for cramps in the stomach. Also found it the very thing for catarrh of the head. My sister was cured of catarrh of stomach by the use of Peruna."

Mrs. E. T. Chomer, 69 East 42nd St., Chicago, Ill., says: "Manalin best laxative on the market for liver and bowels, very good for indigestion and heart burn."

Those who object to liquid medicines can secure Peruna tablets.

OCTOBER A MONTH OF RELIGIOUS CONVENTIONS.

The calendar for this month will be marked by several conventions of great interest to religious workers in various fields.

Beginning to-day and continuing through Wednesday and Thursday the State Convention of the Kentucky Sunday School Association will be held at Maysville. The committee in charge of the work at Maysville is working in feverish haste and with a determination to make this meeting one of the most notable in the history of the Association. Organization plans have been completed, and with the well-known energy and single-mindedness of purpose which the Maysville people put into everything they undertake, the committees are receiving the undivided support of the people of Maysville to make the occasion a success.

Paris and Bourbon county will send a large delegation to the meeting, representing all the Sunday schools in the city and county.

The annual convention of the Fifth District Christian Endeavor will be held in Winchester on Friday, Oct. 19, and will continue three days. The district is composed of the counties of Montgomery, Clark, Bath, Estill, Morgan, Powell, Menefee and Wolf. Extensive preparations have been made by the people of Winchester to entertain the delegates. The sessions of the convention will be held in the Winchester Christian church. An excellent program has been arranged, on which a number of noted speakers are slated for addresses.

BREAKS A COLD IN FEW HOURS—TRY IT!

First Dose of Pape's Cold Compound Relieves All Grippe Misery.

Don't stay stuffed up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute. (adv)

A Great, Timely Opportunity for Every Woman!

The Wool Dress Goods Bargain Sale

At Wolf, Wile & Company's

It Sounds Improbable and Contrary to the Well Known Tendency to High Prices. A Statement in Full Accordance with the Facts.

Woolen dress materials for men and ladies wear, owing to Government orders given to woolen manufacturers, the high price of raw wool, the increase in the cost of skilled labor, have been soaring skyward in value since the Fall Season of 1915. It is no exaggeration to state that woolen materials have advanced averagely 80 per cent, but a great many of the most desirable dress materials have risen 150 per cent above the cost in the Spring of 1916.

This sudden increase in the cost of these materials has been discouraging to the retail trade and in consequence woolen goods have not moved in the usual manner, leaving us somewhat heavily stocked in this particular department.

We Are Going to Stimulate the Woolen Dress Goods Business.

We have assembled and are displaying for one week from Monday, October 15th, on a Sales Counter, a collection of woolen dress materials, 48 to 54 inches in width, heavy, medium and light weight weaves, dark, medium and evening shades, usable for dresses, suits, coats, skirts, dress waists, evening wraps and party costumes. The prices up to this day on all these have been \$2.00 to \$4.00 per yard. Our offer for one week is, for your choice, per yard.....\$1.50

Conduct of Sale.

These offerings consist of single dress suit or skirt lengths, also larger pieces, of which any desirable quantity may be had.

Every sale made out of this collection is absolute, there will be no sending on approval, or returning for exchange, money refunded or credit on account.

We anticipate an unprecedented rush for these bargains, therefore the purchases made by our customers must be unconditional.

NO SAMPLES WILL BE CUT.

THE Beautiful - Gulf - Coast!

The beautiful thing about the Gulf Coast, between New Orleans and Pensacola, is that it is a real playground, summer or winter—a playground for northern folk from November to May, and for the Southrons during the summer months. You can't ask for much more of placid nature than has been expended on the Gulf littoral between New Orleans and Pensacola. There are pine woods, forests of live oaks, all moss hung and mysterious, long stretches of winding, shaded roads, woodland paths, quaint southern hamlets and modern resorts teeming with gayety and active life; lovely retreats where you can swing in a hammock all day and drowse in the narcotic air. And there is the sparkling water, the beach, the surf, boating, fishing—anything and everything that calls from the salt waterside.

Going South on the Louisville & Nashville Railroad, after you leave Mobile, it is impossible to escape the infection of joyous living, even if you wanted to do that. At every stop throngs of people are going and coming—youth and age alike, getting on or off the trains. Laughter and breezy, sunny, fragrant air greet you. It is moreover a place of sane, natural outdoor joys in surroundings of homely comfort or of luxurious ease, whichever you prefer. It is a locality of ancient and honorable traditions and the natives are descended from holders of the soil since the first days of the white settler. They make you welcome with a stately, Southern hospitality, and have put at your disposal the best their home land affords. Every resort and every old plantation home is shaded by age-old ancestral oaks and grown over with trailing vines, roses and perennials; and they look out over the gulf waters, at the dancing waves, the scudding sails, the beach and the surf. If you can't find happiness down there in the golden sunshine and among the countless diversions and attractions of that playground, don't go South in the Winter expecting to find your "Promised Land," for you'll have only your trouble for your pains. No choicer spot exists and greater comfort is not to be found. The winter climate is ideal not uncomfortably warm, but moderate and bracing, putting snap and ginger into the system.

Touring along the Gulf Coast is one of the ways travelers take to find their own particular choice—and for this purpose the train service of the Louisville & Nashville Railroad is convenient. You can stop everywhere, beginning at Mobile, and stay a few hours, a few days or as long as you wish. It is a fascinating vagabondage that will bring you eventually to the place of your ultimate desire. You can, also, if you choose, ship your motor car to Mobile and go in for regular touring along the Gulf—the road are all good and the country is fascinating in the extreme. History lends its background of fact to a long list of interesting tradition and romantic legends concerning this locality, and the "atmosphere," while wholly American, has the foreign flavor in sufficient degree to give it diversity and variety. Topographically, the coast lies low and curving, rising gently toward the hinterland, which is forested with pines, broken in the clearing by rich and productive farmland. The shore line is much indented, the numerous bays, "bayous," "sounds" and lakes giving a seemingly endless and all-surrounding waterway. Lying off the shore is a line of islands, forming the outer bulwark of Mississippi Sound, and fronting this are the resorts that have been famous since pre-revolutionary days—the towns which began as of French colonies, begun under the brothers de Bienville and d'Iberville.

SOUL STOMACH.

Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

CLUB MEETINGS.

Mrs. Frank P. Lowry was the genial hostess to the members of the Art Club at its recent meeting, which was held at her home on Stoner avenue. An interesting paper was read by Miss Elizabeth Grimes on "Architecture," which was enjoyed by all. At the next meeting of the Club, to be held to-morrow (Saturday) afternoon at 2:30 o'clock, with Mrs. Lowry, the subject for discussion will be "Egyptian Architecture." Mrs. Fanniebell Sutherland will lead the round table discussion on the subject. Mrs. John A. Bower will read a paper, "Along the Banks of the Nile," and Mrs. Robt. Meter will read one of Shelley's Sonnets.

Mrs. Wm. G. Talbott presided at the meeting of the Paris Literary Club held Wednesday afternoon in the absence of the president, Mrs. W. O. Hinton, who was in Louisville. Papers were read as follows: "Quebec's Eventful History," Miss Griffith; "The Quebec of the Present," Miss Lilliston; Book Review, "The Seats of the Mighty," Mrs. J. S. Wilson. At the conclusion of the program an appeal was made to the members to buy Liberty Loan bonds. "The Madonnas" was the subject

for discussion at the meeting of the Progressive Culture Club, held Wednesday afternoon at the home of Mrs. Frank O'Neill. The following papers were read: "Sistine and Madonna of the Chair," Miss Bacon; "The Immaculate Conception," Mrs. W. Ed. Tucker; "Holy Night," Mrs. T. A. Hendricks.

SMALL BOYS HAPPY.

The urchans are happy as larks now, especially on Saturdays. There are loads of walnuts and hickory nuts in the woods this fall and the frosts of the past few nights have shaken them from the trees. When you see a "kid" with hands stained as if he had been using iodine on them, you can safely bet he has been hulling walnuts. Nuts are used so much in decorating and flavoring, especially in sandwiches and salads, and the announcement of their abundance is a welcome one.

SUIT FILED FOR \$20,000 DAMAGES.

Mr. K. F. Daniel, formerly of Paris, through his attorneys, has filed a suit in the office of Circuit Clerk Wm. H. Webb against the Kentucky Traction & Terminal Company, asking for damages amounting to \$20,000 for the death of his wife, who was killed by one of the company's cars in this city on August 9.

Mr. Daniel and his children were absent from their home, being in London, Ky., attending the Laurel county fair. Mrs. Daniel, who was eighty years old, had written them a letter, and was attempting to cross the street in front of the residence, near Nineteenth street, to give the letter to a mail carrier. She was struck by a Paris and Lexington interurban car and killed instantly, her body being frightfully mangled. Mr. Daniel is a wealthy lumberman. After the death of his wife, he disposed of his home and his business interests here and with his children moved to London to reside.

OCTOBER EVERYSTUDENT.

The October number of Everystudent, the P. H. S. monthly publication, the first of the present school term, is just off the press at THE NEWS Job Rooms, and is, as usual, a most creditable publication, editorially and typographically.

The October number was issued under many handicaps on the part of the business and editorial staff, but perseverance and patience finally conquered.

The table of contents in as follows: "The Mt. Sterling Game;" "The Georgetown Game;" "The Lexington Game;" "Seniors Elect Officers;" "Americanism;" "How Bob Saved the Class Honor," by Lottie Crowe; "Football Schedule for 1917;" "High School Canning Club;" "What Is a Laboring Man?" "Editorial Comment;" "Conservation;" "Alumni;" Personals; Chapel Notes; Witticisms; "A Friend in Need Is a Friend Indeed," by Katherine Brophy.

The last page is devoted to an appeal to the patriotism of the people, urging them to buy Liberty Loan Bonds.

SELLS FARM.

Mr. Jos. Perraut, of Cynthiana, through the C. T. Eales real estate agency of that city, has sold his Bourbon county farm, known as the J. M. Scott farm, near Shawhan, to Mr. Lee Houston, of Cynthiana. The farm contains 302 acres, and the price paid was \$150 an acre, making an aggregate of \$45,300. Mrs. Houston will get possession of the farm on March 1, 1918.

SECRETARY CONSIDERING CALLING OUT DRAFTED MEN

Secretary Baker has indicated that a decision as to the examination and classification of all remaining men registered under the draft law might be reached within a few days. Congress eliminated from the urgent deficiency bill an appropriation for this work and it has been assumed that the project could not be carried out, at least until money was forthcoming at the next session in December.

Mr. Baker also is considering a proposed change in the process of examining the men which has been recommended to him, the details of which have not been announced.

Discussing reports that several bills proposing to change the draft ages will be offered when Congress reassembles, the Secretary said that he had not changed his opinion that 16 to 26 was the best age limit for military service. He added, however, that he was considering no amendment to the present law.

Tentative plans for the second draft call worked out by Provost Marshal General Crowder call for the establishment of order of liability of men in regard to dependents and value for industrial work. Arranged in tables those who are without particular industrial value and have no dependents would be tested in the first class; the second class would indicate those with distinct dependents and so on down the list. The scheme has been submitted to a civilian board and has been approved. It is now being discussed by those civilians with the Governors of the various States.

6 BLUE GRASS FARMS

To Be Sold By Public Auction
TUESDAY, NOV. 13

AT 10 O'CLOCK A. M., SHARP

GEORGE A. BAIN, Auctioneer.

7 Miles from Lexington on
the Newly Asphaltd
Maysville
Road

THESE FARMS ARE A PART OF THE FAMOUS ESTATE OF THE LATE JAMES B. HAGGINS AND ARE THE FIRST TO BE OFFERED TO THE GENERAL PUBLIC BY AUCTION.

Farm A, 100 1/2-100 acres—1 a brick residence; 2 42-stall circular horse barn; X water system. All in blue grass sod except about 15 acres.
Farm B, 173 1/2-100 acres—1 a stucco cottage; 2, 3, 4, 5 and 6, ten-stall horse barns; 7 a cottage; X water system. All in blue grass sod except about 15 acres.
Farm C, 106 1/2-10 acres—No improvements; all in blue grass; good water.
Farm D, 289 acres—1 7-room cottage; 2 a tobacco barn; 3 a brick dwelling. All except about 40 acres in blue grass and wheat.
Farm E, 159 1/2-10 acres—1 a 20-acre tobacco barn; 2 42-stall circular horse barn; 3 7-room cottage; X water system. All in wheat and blue grass sod.
Farm F, 35 acres—1 an up-to-date abattoir and packing house. Something better than you could imagine. All in blue grass and wheat.
The order of sale will be A, E, B, D, F, C.

With the idea of increasing food production, so essential to the needs of our nation at this time, the undersigned purchased these fertile and unutilized farms from the late James B. Haggins' Executors in one tract of 662 acres, the smallest procurable. As can be seen from the above cut, we have divided this tract into SIX FARMS, ranging in size from 35 to 289 acres, which puts this HAGGINZED PROPERTY within the reach of the farmer who is unable to operate a large tract. These farms are on one of the best turnpike roads in Kentucky. They are on an interurban line, and about half a mile from Muir Station on the L. & N. Railroad. The location of these farms is the best in the State. They are in the very heart of the far famed Blue Grass Region. They are surrounded by many picturesque properties, including the famous Elmsford Dairy; Harry Faye's Whittey's thoroughbred nursery; the beautiful Lexington Country Club and many other noted places. City water already has been piped to the Elmsford Dairy, within one mile of this property. Electric light and power is obtainable at the road. TERMS—One-third cash, upon delivery of deed; balance cash or in equal installments due in 1, 2, 3, 4 and 5 years at purchaser's option, with interest at the rate of 6 per cent per annum, payable semi-annually, secured by lien on the property. Recent surveys by William A. Newman and examinations of the titles by W. T. Smith will be furnished purchasers free of charge. For further information address:

THE JACKSON TRIO AT THE ALAMO AND GRAND.

The Jackson Trio, a musical organization of more than usual ability, is delighting patrons of the Alamo Theatre and Paris Grand with excellent programs of instrumental selections. The trio is composed of violin, piano and violoncello, each instrument being in the hands of an artist. The selections rendered have been both popular and classic with a plentiful sprinkling of the ragtime music that sets the feet patting and the fingers drumming in unison. The Jackson Trio will be a feature at these amusement places for an indefinite period.

CONDUCTING SURGICAL DRESSING CLASS AT CYNTHIANA.

Mrs. May Stoner Clay, who left yesterday for Kirksville, Mo., to remain for some time for the benefit of her health, has been conducting a surgical dressing class in Cynthiana. In her absence the work will be in charge of Miss Lucy Simms, of Paris. The Cynthiana Democrat says:

"Miss Lucy Simms, of Paris, will give the six new special dressings to the instructors that graduated in Mrs. Clay's class, on Saturday morning at ten o'clock in the surgical dressings room at the city school. Mrs. Clay, Mrs. Taylor and Miss Simms were here Tuesday afternoon inspecting the dressings that have been finished by the present class. The Chapter supervisors, the instructors and the class were highly commended on their beautiful work. It is much regretted that Mrs. Clay will not be able to continue the work this winter, but on account of her health left for Kirksville, Mo., Thursday."

SOCIAL AND PERSONAL.

Comings and Goings of Our People Here, There and Elsewhere.

—Mrs. Robert Langston and Mrs. Bishop Hibler are guests of Mr. and Mrs. Alonzo Deaver, near Muir.

—Mr. and Mrs. Charles A. Webber, of Paris, were recent guests of Dr. and Mrs. W. E. Risque, near Midway.

—Miss Eugenia Fishback has returned to her studies at Midway College, after a short visit to her mother, Mrs. Ada Fishback, on Fifteenth street.

—Mrs. Thos. A. Higgins has returned from a visit to her nieces, Misses McLaughlin, on East Maxwell street, in Lexington.

—Among those from Paris who attended the races at Latonia track yesterday were Harry B. Clay, Chas. Peddicord, Dr. A. H. Keller and Clyde Keller.

—Mr. and Mrs. J. J. Veatch and daughter, Mrs. Irene Isaacs, left Wednesday for a week's visit to relatives and friends in their old home, Lebanon.

—Miss Lois Squires has resigned her position as cashier at L. Frank & Co.'s, and will take a position after November 1, in the North Middletown Deposit Bank.

—Mr. and Mrs. Logan Bryan, of North Middletown, accompanied by Mrs. J. P. Wheeler, of Carrollton, Assistant State Inspector of the Red Cross Society, are guests this week of Dr. and Mrs. A. B. Coons, in Georgetown.

—Mr. and Mrs. Wm. Bryan, whose handsome home at the corner of Cypress and Fifteenth streets was recently destroyed by fire, are temporarily located in one of Dr. F. P. Campbell's cottages, on High street.

—Mr. and Mrs. Paul Makel, recently, were given a miscellaneous shower at their home on High street, Monday night by a number of friends, who showered the young couple with many useful and ornamental articles. Mrs. Makel was formerly Miss Ethel Freeman.

—Mrs. W. L. Davis, who has been a guest of her sister, Mrs. John T. Hinton, for several weeks, left today for her home in Columbia, S. C., accompanied by her little granddaughter, Miss Margaret Brown Frost, daughter of Mrs. J. C. Frost, formerly Miss Mary Irvine Davis, of Paris. —Cynthiana Democrat: "Mrs. R. L. Conway has returned home, after several weeks' stay with friends in Millersburg, North Middletown and Carlisle. Messrs. Allie Harding and Henry LeVesque attended the football game at Millersburg, Tuesday, between M. M. I. and Mt. Sterling."

—Mrs. C. J. McLearn is in Paris superintending the packing of her furniture and household goods, preparatory to shipping to Owenton, where she has purchased a large hotel. Mrs. McLearn has been spending most of her time in Owenton in the past few years.

—Miss Ford Heath, of Oklahoma City, Okla., a sister of Mrs. Mayme Pithian, was brought to the Massie Memorial Hospital, in Paris, Tuesday for treatment. Miss Heath had been in Japan for some time as a missionary from the Episcopal church. Her illness is attributed to overwork and nervousness.

—Mr. and Mrs. Charles Stephens, of Stoner avenue, will, on next Monday, Oct. 22, celebrate their golden wedding. Mr. Stephens and Miss Mary Miller were married on Oct. 22, 1867. They have four children, Mrs. Woodford Spears, of Paris, Dr. Barclay Stephens, Dr. C. J. Stephens and Dr. John Miller Stephens, all residing in California. The happy event will be celebrated at Mr. Stephens' home on Stoner avenue.

—Mr. A. P. Gilmour, of Lexington, representing the Kentucky Magazine, was a caller at THE NEW office Wednesday. Mr. Gilmour was in Paris in the interest of the magazine, which is now published by a stock company having headquarters in Louisville. Mr. Gilmour is a prominent attorney of Lexington, but has been devoting a considerable portion of his time to the Kentucky Magazine, which is one of the best publications in the Middle West.

TO ATTEND D. A. R. CONVENTION

Plans are being made by several members of the Jimma Johnson Chapter, D. A. R., to attend the twenty-first Kentucky Conference of the Daughters of the American Revolution, which will be held at the Altamont Springs Hotel, in Ft. Thomas, Ky., on Oct. 24 and 25.

The Keturah Moss Taylor Chapter, of Newport, will be the host Chapter. An interesting program has been arranged and a sight-seeing trip through Newport, Covington and Cincinnati, followed by a reception at the Union Central Building, October 24, at 4 p. m., and a reception Wednesday evening at 9 o'clock, are the diversions that are planned.

Those from Paris who expect to attend are Mrs. Wm. G. Talbott, Mrs. Wade H. Whitley, Mrs. Virgil Gattskill, Miss Elizabeth Grimes, Miss Rachel Wiggins, Miss Blanche Lilliston, and perhaps several others.

HELPING THE LOAN.

A monster Liberty Loan rally will be held in Carlisle tomorrow to further the campaign in Nicholas county. Judge Denis Dundon, of Paris, who has been giving his services to the cause, will be the principal speaker on this occasion.

PYTHIAN SISTERS.

By order of the M. E. C., Mrs. Anna Mussion, all members of the Pythian Sisters, are requested to meet in their Temple at 7:30 o'clock this (Friday) evening. Work initiation will be put on and other business of importance transacted.

U. D. C. MEETING.

The regular meeting of Richard Hawes Chapter, United Daughters of Confederacy, will be held in the Confederate room in the county house, at 2:30 o'clock tomorrow (Saturday) afternoon for transaction of important business.

This meeting will be mainly for the purpose of electing officers to serve for the coming term, but other business of importance will be transacted. Delegates who attended the Danville Convention will make a report of the proceedings.

NOTICE TO GAS AND ELECTRIC CONSUMERS.

Owing to the extreme increase in all of our operating expenses it has become imperative that we conserve every resource if we continue to maintain our present prices, which we hope to be able to do with your assistance.

Therefore, beginning with the bills sent out Nov. 1st, the last discount day will be changed from the 15th of the month to the 10th of the month and service will be discontinued on the 20th of the month if account is not paid by that time.

Yours respectfully,

SEND HIM THE NEWS.

It will cost you three cents to send a letter after the first of November. It will cost you less than three cents a week to send THE BOURBON NEWS to your son in the army camp and give him more news than you could possibly crowd into a letter. Try it—\$2.00 a year—\$1.00 six months—50 cents three months.

ATTENTION, DEMOCRATS.

Don't forget that you have nominated a ticket and will have to come out in full force on the regular election day, Nov. 6, if you want them elected. Don't let old "General Apathy" cause you to lose any of your watchfulness. Be sure to be on the job all the time.

A RARE BARGAIN IF SOLD AT ONCE.

If sold Friday, Saturday or Monday, I have a big bargain for some one—either 8 or 11 matched solid mahogany Colonial dining room chair, with best leather seats. AN OPERATION AVERTED

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind so I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I soon noticed a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 3432 Hartville Street, Phila., Pa.

A HARD KNOCK.

(Boston Transcript.)
During the cross-examination of a young physician in a lawsuit the plaintiff's lawyer made disagreeable remarks about the witness' youth and inexperience.
"You claim to be acquainted with the various symptoms attending concussion of the brain?" asked the lawyer.
"I do."
"We will take a concrete case," continued the lawyer. "my learned friend, counsel for the defense, and myself were to bang our heads together would we get concussion of the brain?"
The young physician smiled. "The probabilities are," he replied, "that the counsel for the defense would."

THE LIBERTY LOAN PRIMER.

You must be either for or against the soldier boys now marching to the trenches in France. You must be either for or against your country. There is no halfway station; no betwixt and between.

Your dollar cannot be neutral. Uncle Sam needs your financial assistance. American success in this war depends upon our sending an army fully equipped, efficiently trained, amply supplied with every requisite of the field. Every link in the military chain must be strong. We dare not take chances.

Germany's tremendous aggressiveness in this conflict has been made possible only by the highest efficiency in every detail. The Germans were prepared at every point when they loosed the dogs of war and sent their armies hurling through Belgium on the way to Paris.

Let's not send to France the pride of America's young manhood the boys for whom in any other emergency we would make any sacrifice, any whit less prepared.

Take care of your loyalty to the army and your loyalty to the country will take care of itself.

There are numerous ways of serving the Kaiser. And withholding your support from the world at large in watching closely and expectantly is by no means the least of these.

You would bitterly and instantly resent any other charge of disloyalty to your country. But calmly think it over for a moment and you will get the point.

You cannot afford, even unconsciously, to leave open this wee loophole for question.

It will be far cheaper and more self-satisfying to buy a Liberty bond.

QUITE EFFICIENT.

(Tit-Bits)

American troops now landing in France have received a more careful and prolonged training than could possibly be given to most of the regiments hurriedly raised during the Civil War. The story goes that a raw battalion of rough backwoods-men, who had "volunteered" once joined Gen. Grant. He admired their fine physique, but distrusted the capacity of their uncouth commander to handle troops promptly and efficiently in the field, so he said:

"Colonel, I want to see your men at work. Call them to attention and order them to march with shouldered arms in close column to the left flank."

Without a moment's hesitation, the Colonel yelled to his fellow-ruffians: "Boys, look wild that! Make ready to thicken and go left endways! Tote yer guns! Git!"

The maneuver proved a brilliant success, and the self-elected Colonel was forthwith officially commended.

Kentucky Made the First Air-Boiled Steel

FIVE years before Bessemer began his pneumatic process of making steel, William Kelly in his furnaces at Cumberland turned forth an air-boiled steel used as boiler plate on river steamboats. The same talent for doing things first has marked Goodrich's role in the rubber industry. Goodrich made the first rubber heel, the first rubber carriage tire, and scores of other 'Firsts' among Goodrich's 4,000 different rubber products. The flower of Goodrich products is Goodrich Tires.

A circular letter was also received stating that a recruit who has served several months in the navy can take examinations for becoming an ensign, without the usual course at Annapolis. This is a new advantage offered to the seamen and is expected to be met with increased enthusiasm in enlistment since it enables a non-commissioned man to get a commission after showing aptitude for the requirements of the navy.

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best For Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels, or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months. (adv)

VERY HUMAN PROVERBS.

(Washington Star.)

Replying to a toast on China's stand against Germany, Chinese Consul Moy Hin said in Portland:

"When I desire to make an American better acquainted with the Chinese I quote some of our Chinese proverbs for him. These proverbs show that we like you, can see one another's fault and laugh at them."

"Our temperance proverbs are rather good. There's one, 'It is not wine that makes a man drunk; it is the man himself.' And another, 'A red-nosed man may be a tee-totaler, but nobody will believe it.'"

"We have a feminine proverb. 'A man thinks he knows, but a woman knows better!'"

An Ordinance

AN ORDINANCE SUBMITTING TO THE VOTERS OF THE CITY OF PARIS, KENTUCKY, THE QUESTION OF A BOND ISSUE OF \$20,000.00 TO CONSTRUCT A SEWER EXTENDING FROM STONER AVENUE THROUGH THE EASTERN PORTION OF THE CITY TO OR NEAR TWENTIETH STREET AND SOUTH MAIN STREET.

CITY HALL, PARIS, KY.,
October 11, 1917.

Be it enacted by the Mayor and Board of Council of the City of Paris that an election be, and the same is hereby, called and ordered to be held on the 6th day of November, 1917, being the regular election day, and that at said election there be submitted to the qualified electors of the City of Paris, the following proposition:

"Are you in favor of issuing bonds in the sum of \$20,000.00 to be paid by levies from time to time to meet the bonds and interest thereon for purpose of constructing a sewer beginning at Stoner Avenue and running through the eastern part of the city to Twentieth Street and South Main Street?"

It is further ordered that said bonds, if authorized to be issued, shall mature at intervals to be hereafter determined, but none of said bonds are to mature at a later date than 20 years after the date of issue, and that there shall be raised annually by taxation for said purpose the sum of \$2,000.00, or such part thereof as may be necessary for an interest and sinking fund for the purpose of paying the interest on said bonds and redeeming said bonds at their maturity. Said bonds shall be issued providing for the payment of interest thereon at the rate of not more than 5% per annum.

At the election herein ordered the qualified voters of the City of Paris, Kentucky, shall have the right to vote, and a tax proposed to be levied for the purpose aforesaid shall be levied upon all property in the City of Paris subject to levy for general purposes.

The City Clerk shall give notice of the election above provided for by publishing a notice thereof in a news paper having a general circulation in the City of Paris, Kentucky, for at least two weeks prior to said election. Said notice shall specify the amount of indebtedness proposed to be incurred and the purpose of the same and the amount necessary to be raised annually by taxation, for an interest and sinking fund as above set out.

The City Clerk will furnish to the Clerk of Bourbon County a certified copy of this ordinance and he will likewise furnish to the Sheriff of Bourbon County a copy of this ordinance within ten days after its passage, and said Clerk and Sheriff are directed to do and to perform everything required by law in conducting said election and in the preservation of the returns and the canvassing and certification of the vote.

It is further directed that the Board of Education Commissioners of Bourbon County shall canvass the returns of said election and certify the results, and they will deliver a copy of the certification to the Board of Council of the City of Paris.

J. T. HINTON, Mayor.

Attest:
J. W. HAYDEN, Clerk.

NEW METHOD OF POSTAL DISTRIBUTION IS STARTED.

Following an order which was issued recently by Postmaster-General Burleson, and which was made possible by an act of Congress last March, the Paris postoffice, named as a central station for Bourbon county, has already begun distributing stamps and other postal supplies to the smaller stations of the county, necessary to meet the demands of an ever increasing public.

Instead of sending their requisitions to the Postoffice Department at Washington, the stations at Millersburg and other Bourbon county towns now order directly from the Paris office. This not only hastens the delivery of stamps, postal cards, envelopes, etc., which are often badly needed when the requisition is mailed, but promotes economy, inasmuch as the work of auditing the accounts of the thousands of stations in the country, formerly done by a force of bookkeepers and clerks at Washington, is now handled by the clerical forces of the several central stations.

The order has been put into effect to lessen the duties of the overworked Washington office in sending out to stations additional supplies that will be needed in the heavy Christmas rush.

**GIRLS! GIRLS! TRY IT!
STOP DANDRUFF AND
BEAUTIFY YOUR HAIR**

**Hair Stops Falling Out and Gets
Thick, Wavy, Strong and
Beautiful.**

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes, but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any druggist or toilet counter for a few cents.

THE BLACK HILLS.

The Black Hills of the Dakotas are in many ways our most beautiful bit of scenery. Lacking the grandeur of isolated loveliness which gives them the charm of the place cut off and secluded—the charm that belongs to lonely islands and to the little towns of the northern wilderness, The Black Hills are a mountain islet in a sea of plain. They have the streams, the forests and the storms of the Rockies, and in their Bad Lands they have the fantastic, wind-cavern buttes and mesas of the Painted Desert and the Grand Canyon. Also, nowadays they have auto roads.

The Black Hills have always been something more than earthly mountains. The aura of savage superstition hangs round them still. There is something rather unearthly even to the most cynical civilized intellect in the shimmering beauty of the canyons, in the mad tangle of fantastically carved cliffs and gullies of the Bad Lands, in the sudden furious mountain storms. The Black Hills are the home of the Red Gods. One great butte the Indians pointed out as the platform whence their Great Spirit spoke to his people—the Sinai of the Dakotas.

The Indians were commanded to keep away from the inner valleys of the Black Hills, and they followed the mandate in all reverence. The hills were never used in tribal war; the deer and the bear that lived in their fastnesses were safe from spear and arrow. More than that, when the white men found gold in the Black Hills and swarmed over the sacred ground, the Indians fought and died by hundreds to prevent the desecration.

Nowadays the red men have out-

grown the old reverence to all appearances, and they watch the twin sixes spin their blue trail of gasoline vapor over the new roads without any visible emotion.

ESTIMATE OF THE WORLD'S WHEAT CROP.

The world's wheat crop this year for the principal countries which have reported, including the United States, is 1,665,489,000 bushels, an increase of 1,665,489,000 bushels, an increase of 3.3 per cent. over 1916, according to reports from the International Institute of Agriculture at Rome, made public recently by the Department of Agriculture.

The world's barley crop is 464,289,000 bushels, an increase of 2.4 per cent; the rye crop, 89,950,000 bushels, an increase of 10.7 per cent; the oats crop, 1,995,504,000 bushels, an increase of 19.9 per cent; the corn crop, 3,273,996,000 bushels, an increase of 25.3 per cent.

Algeria, the latest country to report, shows wheat production of 29,715,000 bushels, an increase of 1.9 per cent. over last year. Her oats crop is 18,946,000 bushels, an increase of 44.2 per cent., and her barley crop, 33,208,000 bushels, a decrease of 7.7 per cent.

HARNESS THE STREAMS

Of the 60,700,000 horsepower of water power in the United States, all but 5,300,000 horsepower is running to waste. The water is at present locked up against utilization by the laws of governing the forest reserves, the general public domain and the navigable streams. Congressmen have not hesitated to advocate higher rates on mail matter of the second class, but have not found time to open up these water powers so that print paper can be made cheaper for the publishers. It has been estimated by Secretary of Agriculture Houston that there is enough timber going to waste in the forest reserves and on cut-over lands to supply wood pulp indefinitely, if the question of its manufacture by water power could be solved. Three bills now pending in Congress—the Shields bill, the Walsh bill and the Small bill—are designed to release the water power to private development in the three fields mentioned. Apparently, however, it is easier to pass billion dollar appropriations, issue bonds and impose direct taxes on "war profits" than to harness the waters to useful purpose.

Conductor Everett Peterson, of

in the way of a wedding celebrated

Conductor Peterson had as passen-

Anderson, Emma Wilson and Rev. E.

the minister asked Conductor Peterson
to run very slowly through the
tunnel just this side of that place,
stating that Anderson and the Wil-

tunnel, and that he was going to per-
form the ceremony. Mr. Peterson,
who is one of the kindest and most
accommodating men on the road,
readily consented. Two drummers
were called as witnesses, and the col-
ored minister tied the nuptial knot

BANK DIRECTORS LOSE CLAIM AGAINST ESTATE

By a decision rendered in the
United States District Court, Tues-
day, by Judge Cochran, the ruling
was upheld of the Referee in Bank-
ruptcy in deciding that the directors
of the defunct George Alexander &
Co. State Bank did not have a prov-
able claim against the estate of Mr.
R. B. Hutchcraft, one of the former
directors of the bank, but who went
into bankruptcy shortly after the
failure of the Alexander Bank.

The Referee also declined to hold
up further the distribution of the
Hutchcraft estate, or until the liabil-
ities of the directors of the bank be
fixed, there being a number of suits
pending against them by the Bank-
ing Commissioner.

The decision will mean the distri-
bution of about \$30,000 among the
creditors of Mr. Hutchcraft, unless
the directors appeal from the deci-
sion of Judge Cochran.

DEATHS.

MONROE.

—Mrs. Nancy Monroe, aged sev-
enty-eight, died at the home of her
son, Mr. Frank Crowe, near Win-
ches, Tuesday morning, after a short
illness. Besides her son, she is sur-
vived by two daughters, Mrs. Lillie
Stevens, of Bourbon county, and Miss
Frankie Crowe, of Winchester, Indi-
ana. Funeral services were held at
the grave in the Crowe burying
ground, near Winchester, on Wednes-
day.

MITCHELL.

—The funeral of Mr. Charles L.
Mitchell, aged sixty-two, who died at
the St. Charles Hotel, in Paris, at
five o'clock Wednesday morning, was
held at the hotel yesterday afternoon
at two o'clock, with services con-
ducted by Rev. W. E. Ellis, pastor of
the Paris Christian church. The body
was taken to Millersburg, his former
home, for interment in the Millers-
burg Cemetery.

Mr. Mitchell's death was due to a
stroke of apoplexy, which he sustain-
ed Sunday evening while seated in a
chair in his room at the hotel read-
ing a paper. He fell to the floor in
an unconscious condition, and never
regained consciousness.

Mr. Mitchell's death was due to a
ed from Millersburg, where they had
resided for many years, to Paris,
about two years ago, and leased the
Howard building on Main street, now
occupied by the Croisdale Cafe. From
there they moved to the St. Charles
Hotel property, where they have
built up a good business.

Mr. Mitchell and his family mov-
son, Mr. Carl Mitchell, who has just
returned from Canada, where he had
been employed on the E. F. Spears
& Sons' ranch; his aged father,
Mr. George Mitchell, of Millersburg
and Spears' Mill; one sister, Mrs.
Ella Lancaster, of Covington; four
brothers, Edward, Russell and Mor-
ton Mitchell, of Millersburg, and
Frank Mitchell, of the Spears Mill
neighborhood.

Mr. Mitchell was a quiet, easy-
spoken man, one who never intruded
himself upon any circle, but who was
known in his own home as a man of
just principles and integrity.

BIRTHS.

—To the wife of Mr. Larkin Wat-
son, of Nineteenth street, formerly
Miss Lula Martin, of Winchester, a
daughter; first born.

STOCK, CROP, ETC.

—Mr. James H. Thompson, of near
Paris, purchased of Mr. John H. Marr
50 head of extra good two-year-old
cattle at a private price.

—About 8,000 cattle were on the
Mt. Sterling market Monday. Some
extra good 900 pounds steers sold as
high as 9 cents the pound. The
bulk of the sales was at 8½ cents;
heifers, 6½ cents; good cows, 6½
cents; bulls, 7 cents. Among the
buyers were R. H. Willis, Hense Mar-
golen, Caywood & McClintock, Mc-
Intyre & McClintock and Clark &
Young, of Paris.

—John M. Brennan and tenant,
Mr. Wm. Kissick, sold to Abnee &
Mussion, 40,000 or more, pounds of
tobacco, to be delivered at Paris, at
\$26.50 per hundred pounds. The
crop will bring the sellers a total of
\$11,000.

—Mr. John H. Marr, of Bourbon,
sold his prize pair of match mules,
prize winners at all the fairs this
season, to Shelby county parties for
a private price.

RELIGIOUS.

—The Endeavor Society of the
Presbyterian church will meet Sun-
day evening at 6:30 in the court
house. The subject will be, "Put-
ting Religion Into Politics." Leader,
Henry Fisher.

—The Pastor's Aid Society of the
Presbyterian church will have an all-
day sewing in the county court room
in the court house on next Tuesday,
Oct. 23. All the members are re-
quested to be present.

—First Baptist Church; Rev. R. C.
Goldsmith, pastor. The pastor will
preach at both morning and evening
services. Morning subject, "The
Prayer Life," evening subject,
"God's Plan." Sunday school at
9:30.

—The annual meeting of the State
Baptist Sunday School Association
will be held at Morehead, Friday,
Saturday and Sunday of this week.
An interesting program has been pre-
pared. A number of delegates from
the Baptist Sunday schools of this
county will be in attendance.

—Marshall A. Hudson, founder of
the Baraca Movement, and president
of the World Wide Baraca and Phila-
thea Union, will speak at the Bap-
tist church, Monday evening, Oct.
22, at 7:30 o'clock. Mr. Hudson is
a man of national reputation, and
the people of Paris are to be con-
gratulated upon this opportunity
thus afforded them. The Baraca Class
of the Baptist Church has seized the
opportunity and expects to have a
rally at the church. Everybody invited
to be present, especially the other
Baraca classes of the city. No ad-
mission is charged.

NOTICE!

Notice is hereby given that the
Board of Council of the City of Paris,
Kentucky, by ordinance passed at the
regular meeting of said Council, on
the 11th day of October, 1917, ap-
proved by the Mayor, called and or-
dered an election to be held on the
next regular election day, being No-
vember 6th, 1917, for the purpose of
submitting to the qualified voters of
the City of Paris, Kentucky, the
question:

"Are you in favor of adopting and
approving the contract between the
City of Paris, and the Paris Water
Company, covering a period of twenty
years, beginning on the first day of
January, 1917, and ending on the
first day of January, 1937, as pub-
lished in the Kentuckian-Citizen, Oc-
tober 13th, 1917?"

The amount of indebtedness pro-
posed to be incurred is \$3,000 a year
or more, as per contract, to pay the
annual sums due on said contract
to the Paris Water Company, and the
amount of money necessary to be
raised annually by taxation to meet
said indebtedness is \$3,000 a year or
more, as per terms of said contract.

J. W. HAYDEN,
City Clerk Paris, Kentucky.
(19-11)

NOTICE!

Notice is hereby given that the
Board of Council of the City of Paris,
Kentucky, by ordinance passed at the
regular meeting of said Council, on
the 11th day of October, 1917, ap-
proved by the Mayor, called and or-
dered an election to be held on the
next regular election day, being No-
vember 6th, 1917, for the purpose of
submitting to the qualified voters of
the City of Paris, Kentucky, the
question:

"Are you in favor of issuing bonds
in the sum of \$20,000 to be paid by
levies from time to time to meet the
bonds and interest thereon for the
purpose of constructing a sewer, be-
ginning at Stoner Avenue, and run-
ning through the eastern part of the
city to Twentieth Street and South
Main Street?"

The amount of indebtedness to be
thus incurred is \$20,000, represented
by bonds to be issued by the City of
Paris, the proceeds of which are to
be used for the purpose of construct-
ing a sewer in the City of Paris, be-
ginning at Stoner Avenue, and run-
ning through the eastern part of the
city to Twentieth Street and South
Main Street, and the amount of
money necessary to be raised annu-
ally by taxation for an interest and
sinking fund to meet said indebted-
ness of \$20,000, is \$2,000 per year
or such portion thereof as may be
required for said purpose.

J. W. HAYDEN,
City Clerk Paris, Kentucky.

A COMMUNICATION FROM DR. A. H. KELLER.

Within the last few days there
have been whisperings and mutter-
ings about the Paris Water Com-
pany's plant. Whence come these
objectors and who are they? Are
they in the open and in good faith?
Or, are they in some devious mis-
guided and unfair way endeavoring
to make trouble for the people of
our city, men and women of good
balance and excellent, good com-
mon sense, by injecting into the com-
ing vote on the Contract between the
City and the Paris Water Company,
all manner of rumors and deprecating
the efforts of the City Council in
having passed such ordinance as in
its good, intelligent business-like
judgment seemed best for the city?

I am not going into the merits or
demerits of the contract which is
now before the public for review. My
official association with the City
began in January, 1911. In that
winter, contagious, communicable
and infectious diseases very largely
prevailed. None of them, however,
was traceable to impure water sup-
ply. Excepting the prevalence of
smallpox introduced through the
agency of the L. & N. R. R., a year
or two later, when numbers of
negroes from the South were being
used for the double tracking of the
system, there have been no epi-
demics of any kind whatever. Gas-
trointestinal diseases, including ty-
phoid fever, have only occurred in
one year since the present Board of
Health began its labors, and this was
in its first year (1911.) A storm of
protest arose at that time, and all
manner of statements were made in-
criminating the Water Company.
Was there the slightest foundation
for these ill reports? There was not.
The epidemic involved probably 20
cases, all of which occurred, I think,
in the Henry Addition. A polluted
water, the old Ford Spring, was the
immediate cause of each case. This
source of drinking water was at once
destroyed, hence an end to the ty-
phoid cases. In this epidemic there
were probably two deaths.

The ordinary intestinal diseases
traceable to highly polluted water
have been conspicuous for their ab-
sence. Very many communities in
Kentucky are now scourged with
typhoid, scarlet fever, measles, small
pox, infantile paralysis, diphtheria,
etc. If there is such a case here, it
is sporadic which is liable to occur
under the most stringent sanitary
surroundings in any regulated city.
I think the Board of Health can
go on record in the statement that
not one single death has occurred in
the past six years which was in any
way traceable to a badly polluted
water furnished to the people by the
Paris Water Company. If such case,
or cases, existed, they were never
reported to me.

It isn't within the province of this
article to defend a bad water supply
but to be just and fair to all con-
cerned and give credit to whom it is
due. There are times when the water
is low and the weather very warm,
that the aroma doesn't strike your

olfactories as would a violet or a
rose—and that is pollution, but not
such as to arouse our people to a
pitch of indignation. Not at all.
Our citizens are too intelligent,
reasonable and broad-minded to give
credulous ear to unworthy and en-
tirely uncalled for reports. If the
State Board of Health refused to
grant to the L. N. Railroad permis-
sion to use the water from the Water
Company's plant the Secretary of
the local Board doesn't see how such
action can be immediately prevented.
Since the life of the present Health
Board many improvements have been
made at the Water Company's plant.
Such chemicals as are ordinarily used
in purifying water for drinking pur-
poses are being used in our waters
here as elsewhere. Exactly the same
chemicals are used in Cincinnati
and in the same proportionate
amounts. Not alone for clarification
and sedimentation, chiefly for bac-
tericidal effect. In other words those
water borne germs which are known
to produce diseases incident to the
human body are being combated in
their efforts by the application of
such chemicals as are known to de-
stroy them. The Water Company's
plant is not of such antiquity as
should convince us that our memory
centers have been long since dead.
Neither is it an outfit which in
every particular conforms to the re-
quirements of a strictly down to the
minute filtration plant. We might
vote a large bond issue and build a
fairly modern plant. Looking from
my view point, realizing that there
are not now, nor have there been
during my regime any diseases at-
tributable to polluted water, I will
vote for, and use my humble in-
fluence to the endorsement of the
contract submitted by the City Council
for ratification or rejection of the
voters on the 6th day of November.
Finally, I desire to say that from
time to time the public has had ample
notice through the local press of the
desirability of boiling all water used
for domestic or drinking purposes
whether such water be from wells,
cisterns, springs or hydrants. These
notices have been officially given
from time to time. The suggestions
to the public are in keeping with
similar suggestions by the best sani-
tarians in the country, men who live
in cities where bacteriologists of high
scientific attainments are busy each
hour of the twenty-four examining
the public drinking water supply—
not a bacillus, not a bacteria may
have been found, yet these eminent
health authorities say boil ALL water
for drinking purposes, the safe way,
and the people of Paris have been
sufficiently advised. On all questions
affecting public health the Board of
Health, composed of Dr. Campbell,
Mr. Monroe Mansfield and Dr. Ober-
dorfer have been in entire accord,
and have at all times advised with,
and given to the Secretary such
earnest hearty support as in its
judgment seemed best.

Respectfully,
A. H. KELLER,
City Health Officer.
